

How to back up the recordings of the new WBOX NVR into a USB flash drive?

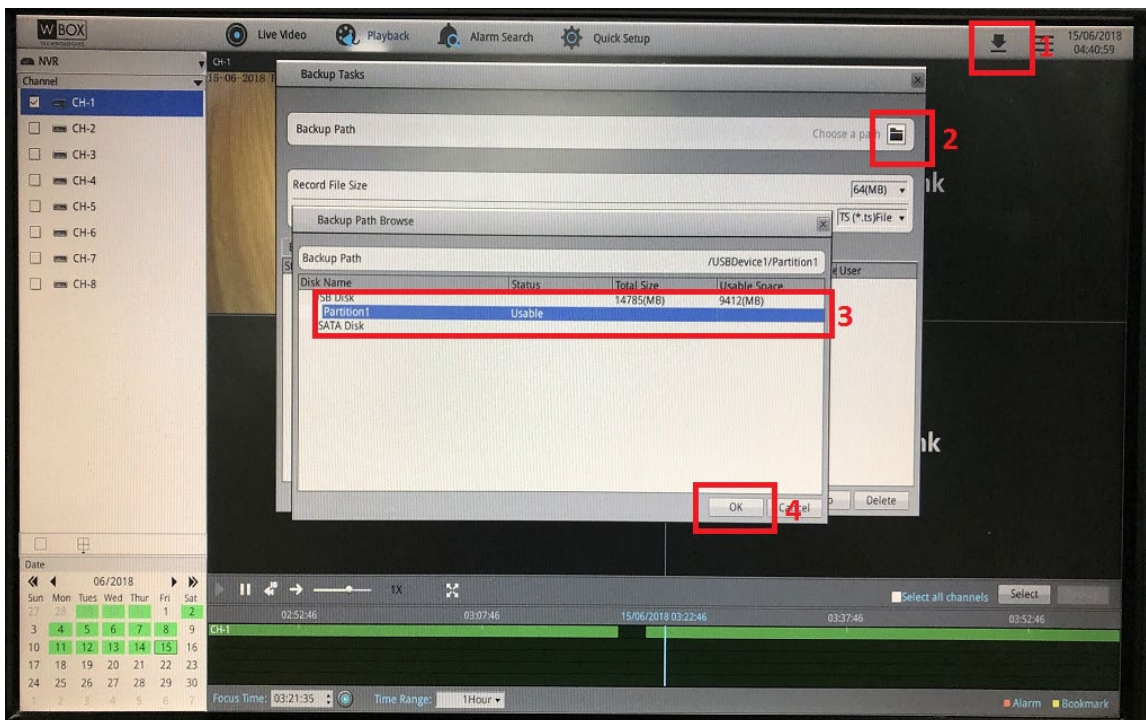

This article outlines the steps in creating a backup of the NVR recordings into a USB flash drive.

Product Models: **WBXNV04P41S1T, WBXNV04P41S, WBXNV08P82S2T, WBXNV08P82S, WBXNV16P164S4T and WBXNV16P164S**

Preparation: Properly insert the USB flash drive into the USB port for the NVR (front or back panel)

Step 1: Selecting the correct backup path/drive

1. On the **Live Video** screen, click the download icon in the upper right.
2. Click the folder icon on the **Backup Path**.
3. Select the drive where you want to back up the recordings.
4. Click **OK** to save.

Note: On the **Record File Size** option, you can choose the size of the file that the recording will be saved. For example, if you choose 64MB, all recordings will be cut into 64MB for each file.

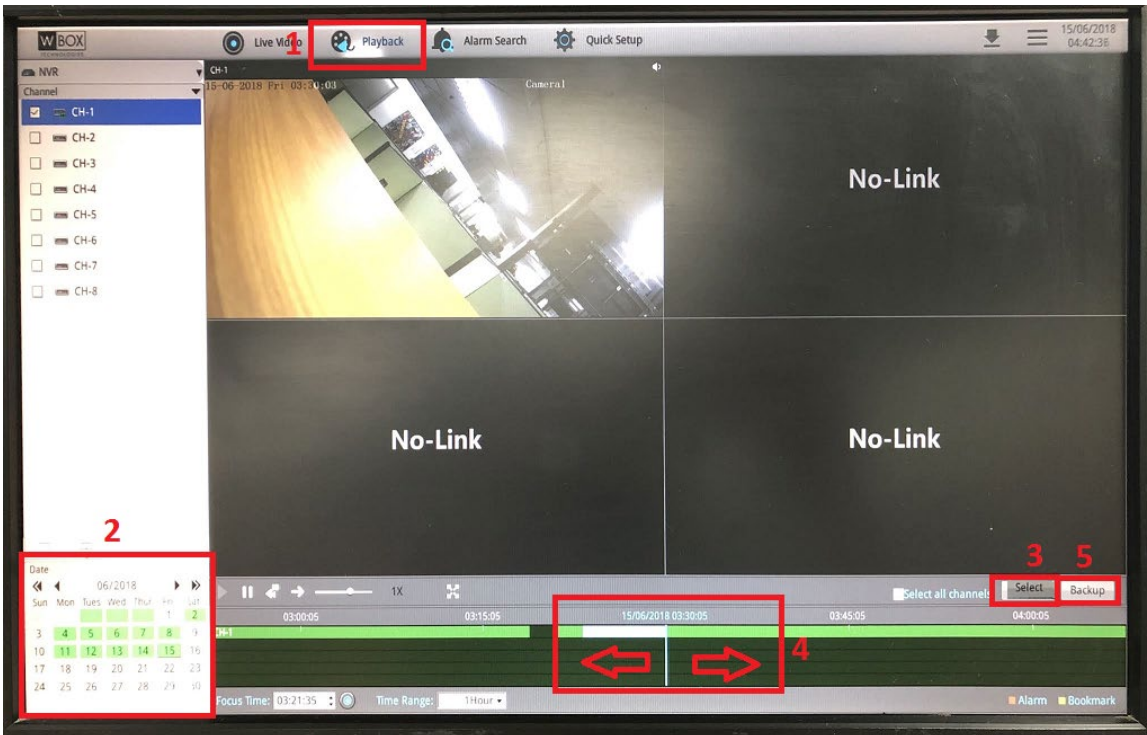

Step 2: Selecting the recordings that you want to back up

1. Go to the **Playback** screen.
2. Choose the date that you want to back up the recordings.
3. On the timeline, go to the starting point where you want to start the backup, click **Select**.

Technical Support: Contact your local ADI Technical Support Line

Website: www.wboxtech.com/en/availability/

4. Drag the time line up to the end of the desired recording.
5. Click **Backup**.

6. Click the **Backup** task to show the progress.
