Accessory Hardware Kit - included inside of Back Box

1 Dimensions

Figure 1-1 shows the dimensions of 0E-BBOXIP66.

Figure 1-1 Dimensions of 0E-BBOXIP66.

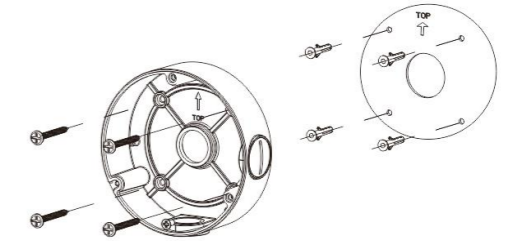

2 Installation Guide

Step 1 Installing base

1. Stick the Installation location sticker on the installation surface.
2. Drill four holes based on the marks on the sticker and drive the swell plastic buttons into the holes.
3. Remove upper cover and attach the base to the surface.

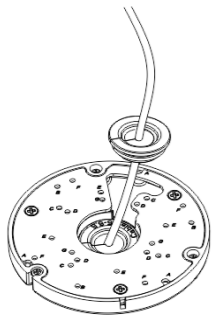

Figure 2-1 Installing the base

Step 2 Installing silicon plug.

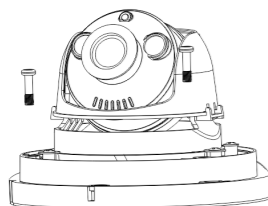

1. Connect the multi-head cable of the camera.
2. Plug the tail of multi-head cable into the silicon plug.
3. Install the upper cover.

Figure 2-2 Installing the silicon plug

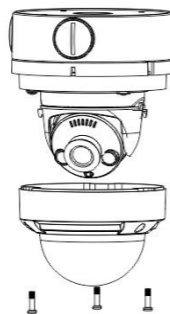

Step 3 Plug the silicon plug into the upper cover, and then attach camera to the upper cover plate. Pay attention to select correct screw holes to match the different model type, as shown in Figure 2-3.
