

REQUEST-TO-EXIT DETECTOR

0E-RXDST

SINGLE OR DOUBLE DOOR
SELECTABLE TRIGGER MODE
SEQUENTIAL TRIGGERING
DOOR ALERT SOUNDER

Model 0E-RXDST is an advanced Request-to-Exit (REX) motion detector that provides door control via a door control device (such as magnetic lock or door strike) or access control system. A variety of programable options allows customization to suit the application. Sequential triggering allows for a higher degree of security and a door alert sounder is included. Durable ABS plastic housing. Optional trim plate (0E-TP) facilitates neat installation, especially with single gang box.

- SUITABLE FOR SINGLE OR DOUBLE DOORS
- SELECTABLE RELAY TRIGGER MODE
- SEQUENTIAL TRIGGERING FOR HIGH SECURITY
- DOOR ALERT SOUNDER WITH VOLUME CONTROL
- ADJUSTABLE 0-60 SECOND RELAY LATCH TIME
- TIMER PROGRAMABLE FOR RESET OR NON-RESET
